*The world's first programmable  
2-way voice pendant communicator with  
no monthly fees.*

**Never pay a monthly, activation or set up fee again.** FreedomAlert is yours to keep and use forever. Once you purchase it there is nothing more to pay.

Personal Security has never been so small or affordable. FreedomAlert is the first product ever to allow you instant 2-way speaker phone communication through your mini wearable pendant to family, friends, or neighbors, at any time from ANYWHERE in or around the home. If your programmed contacts are unreachable at the moment – the system can default to contact a 911 emergency operator. Never be out of range from assistance again.

FreedomAlert is a one time purchase – no monthly fees!

**The worlds first 2-way emergency pendant communicator**  
Emergencies can happen in all parts of a home and frequently right outside a home in the yard or driveway. All other systems on the market require the user to shout across the home to a speakerphone box in the middle of the home. FreedomAlert puts the speakerphone right in the pendant - and gives you great voice quality anywhere within hundreds of feet of the base unit.

**Up to 4 user programmable contacts to call anytime**

You can personalize the system with a flick of a three position switch on the base unit to:

1. Call up to 4 custom contacts
2. Call up to 4 custom contacts & then the 911 emergency operator
3. Or just the 911 emergency operator.

It's your choice.

## Emergency operators are available as backup if needed

FreedomAlert can also contact a free 911 emergency operator as a backup in case you can not reach a family member or neighbor. This way you are completely protected 24 hours a day, 7 days a week, 365 days a year. You are never alone with FreedomAlert.

## Complete coverage in and around your home

Because you are speaking through your pendant, FreedomAlert allows you to communicate your message from every corner of your home, outside in the yard and in the driveway. Emergencies can happen anywhere.

## Multiple Pendants

Each FreedomAlert system can support a combined total of 4 pendants & Emergency Wall Communicators. Great for husband and wife or small group homes.

## Optional Accessory - Emergency Wall Communicator

This wireless water-resistant device is designed to mount on a wall. Mount one next to the bed-side table or even next to the shower in the bathroom. These permanent communicators allow for full two-way voice communication anytime an emergency occurs. Particularly handy if one forgets to carry their pendant with them to the bathroom in the middle of the night. Operates in standby well over a year on 4 AAA alkaline batteries - and provides over 5 hours of talk time.

## Voice coverage for typical Personal Emergency Response System

## FreedomAlert: Full house coverage

## COMPLETE 2-WAY VOICE COVERAGE IN AND AROUND YOUR HOME:

Freedom Alert will allow you to communicate your message instantly and efficiently from within many hundreds of feet of your base station. The system should cover your average American home and well into the front, back and side yards.

FreedomAlert is not a cellular phone. This is a system designed to give you total protection anywhere in or around your home at any time. In fact FreedomAlert has many advantages over a cellular phone.

FEATURE	FREEDOM ALERT	CELLULAR PHONE
1-Button Activation	<b>Yes</b>	No - Up to 5 buttons needed to activate
Consistent Signal	<b>Yes</b>	No - Inconsistent signal
Battery Charge Lasts	<b>Several Months</b>	Several Days
Water Resistant	<b>Yes</b>	No - Not to be taken in the shower/bath
No Monthly Fees	<b>Yes</b>	No - Typically \$25/month
2-way speakerphone	<b>Yes</b>	No
Traceability	<b>Yes</b> - through phone system "Caller ID"	No - Not traceable
Size	Tiny & lightweight	Not meant to be kept on you 24/7
Power on	<b>Yes</b> - Power is always on	No - Needs to be powered on and constantly charged

**Water Resistant** The pendant allows you to summon help even if you are in the bath or shower where serious accidents are most likely to happen. Meets the IPX-5 water spray test.

**Voice Prompted System** Provides announcements during set-up, testing, battery test and full system check.

**Pendant Battery** Lithium-ion battery provides several hours of talk time on a full charge, and up to several months in stand-by. Two such rechargeable batteries are included. One charges in the base station charger, while the other is in the pendant. Simply swap the batteries around every few months. Press the battery test button on the back of the pendant for a second to hear an audible announcement - "battery is OK", "battery is low", or "replace battery now". No guessing on battery status.

**System has Standby Emergency Battery Power** 4 NiMh rechargeable batteries continually charge in the base station so as to be able to provide up to 24 hours of standby power in the event of a power failure in your home.

**Fully Portable** For use in any home with a regular phone line. FreedomAlert can be brought with you when you travel to visit the relatives. Just bring your system with you and plug it into any standard phone jack.... and you are protected.

**Simple Set-up** Plug in phone cord, power adaptor, and simply program contact numbers using your home touch-tone phone.

**Pendant can be Carried in 3 Convenient Methods** Included with each system is a **Lanyard**, a **Wrist/Wheelchair Strap** holder and a **Belt Clip**. Your choice.

**FreedomAlert Complies with NENA Standards** (National Emergency Number Association is the affiliation of 911 emergency operators).

**Fully Supervised System** The pendant checks itself twice a day - and checks in with the base station. If the battery is low, or there is a problem. The first telephone contact is called with a pre-recorded alert message.

**Approved in all 50 States and Canada.**  
**1.9 Ghz DECT Technology offers superb voice quality.** FCC & DOC certified. Factory is ISO-9001 approved. Conforms to UL1637.

**VoIP Compatible**
